FROM

SUBJECT: AFCIN-1B's Ability to Service Minicard Requests from CIA  
and AFCIN Minicard File Coverage.

25X1A9a 1. I discussed both items with Major Sanders who welcomes the opportunity to perform this service. Two or three requests per week can be handled. If requests are not sensitive they may be phoned to Mr. Vandervander X75208 by [REDACTED] Otherwise they may send by mail. If rush, I suggest Analysis Branch Pouch.

2. In respect of coverage, Major Sanders advises that the Air deck dates back to Sept. 58 plus some backlog dating back to March 58. Trip reports which were not coded previously are now being coded and added to the file. Since 15 April non-Air reports are being added to the file at the rate of 100 per day.

3. The ADG is not coding Air information reports although they are held in the corpus of documents and fixed field has been coded.
